CLASS ACTION SUMMARY

**CATHODE RAY TUBE INDIRECT PURCHASER
ANTITRUST CLASS ACTION - MITSUBISHI SETTLEMENT**

Case History

Several class actions were filed in 2007 alleging that the Defendants conspired to raise and fix the prices of CRT Products, which resulted in overcharges to consumers who purchased CRT Products. These class actions were consolidated in the Northern District of California. The Court granted final approval to settlements with Defendants Chunghwa, LG, Philips, Panasonic, Hitachi, Toshiba, Samsung SDI, Thomson and TDA in the amount of \$547,750,000 (the “Prior Settlements”); those funds were distributed to eligible claimants in December 2022. In October 2022, the Court granted preliminary approval to the \$33,000,000 settlement with Mitsubishi (the “Mitsubishi Settlement”), which is discussed in more detail below. The litigation is ongoing against Irico. If a settlement or other favorable resolution is reached with Irico, there may be additional funds available to eligible class members.

Mitsubishi Settlement: If you submitted a proof of claim form in the Prior Settlements, you do not need to file a new claim form to recover from the Mitsubishi Settlement unless you want to supplement your claim with purchases in one of the nine (9) states - AR, MA, MO, MT, NH, OR, RI, SC and UT - that were not included in the Prior Settlements. If you did not submit a claim form in the Prior Settlements, you must submit one by June 13, 2023 to be eligible to recover from the Mitsubishi Settlement.

Class Counsel or the Settlement Administrator may be contacted for additional settlement information. You also may visit the Court-approved website.

Please understand that you have the right to file on your own.
