CLASS ACTION SUMMARY
**FACEBOOK ADVERTISING
ANTITRUST CLASS ACTION**

Case History

Commencing in 2018, class action lawsuits were filed alleging Facebook misrepresented certain advertising statistics which induced advertisers to pay more for Facebook advertising than they otherwise would have been willing to pay, and which provided Facebook with an unfair competitive advantage over other online advertising platforms. It is impossible to predict the outcome, but money may become available to eligible class members if a settlement is reached with Facebook in the future. FRS will update this Summary as the case progresses and new information becomes available.

**Class Counsel or the Settlement Administrator may be
contacted for additional settlement information.**

You also may visit the Court-approved website once one is established.

Please understand that you have the right to file on your own.
