CLASS ACTION SUMMARY

**PORK PURCHASER
ANTITRUST CLASS ACTION SETTLEMENTS**

Case History

Several class action lawsuits were filed on behalf of the Direct, Indirect and Commercial Indirect Purchasers in the District of Minnesota alleging the Defendants conspired to fix, raise, maintain and stabilize Pork prices in violation of U.S. federal antitrust laws. At this time, the nationwide Indirect and Indirect Commercial Classes have entered into settlements with JBS for approximately \$20 million and \$12.75 million, respectively. The settlement with the Indirect Class is pending final approval and the settlement with the Indirect Commercial Class received final approval. Only class members in the jurisdictions listed above are eligible to potentially recover from the settlement funds. The Direct Class has entered into settlements with JBS for approximately \$24.5 million (this settlement received final approval) and Smithfield for approximately \$83 million (this settlement is pending final approval). The settlements funds (less any expenses and fees) will be distributed if and when the Court grants final approval of the settlements and claims processes are completed. The litigation is presently ongoing against the remaining Defendants on behalf of the Classes. It is impossible to predict the outcome; however, it is possible that money may become available to eligible class members if additional settlements are reached with the Defendants in the future.

Class Counsel or the Settlement Administrator may be contacted for additional settlement information.
